

Riga Technical University – Uzbekistan Based Semester

**Creates study options
offering an alternative route
to Bachelor programmes**

**RIGA TECHNICAL
UNIVERSITY**

Riga Technical University (RTU) – leading European engineering university in Baltic Countries – provides an extensive range of engineering, computer and business study programmes in Riga TU Information and Study Centre in Uzbekistan.

Study one semester in Uzbekistan and transfer directly to the second semester to Riga Campus to the following engineering or business full-time programmes:

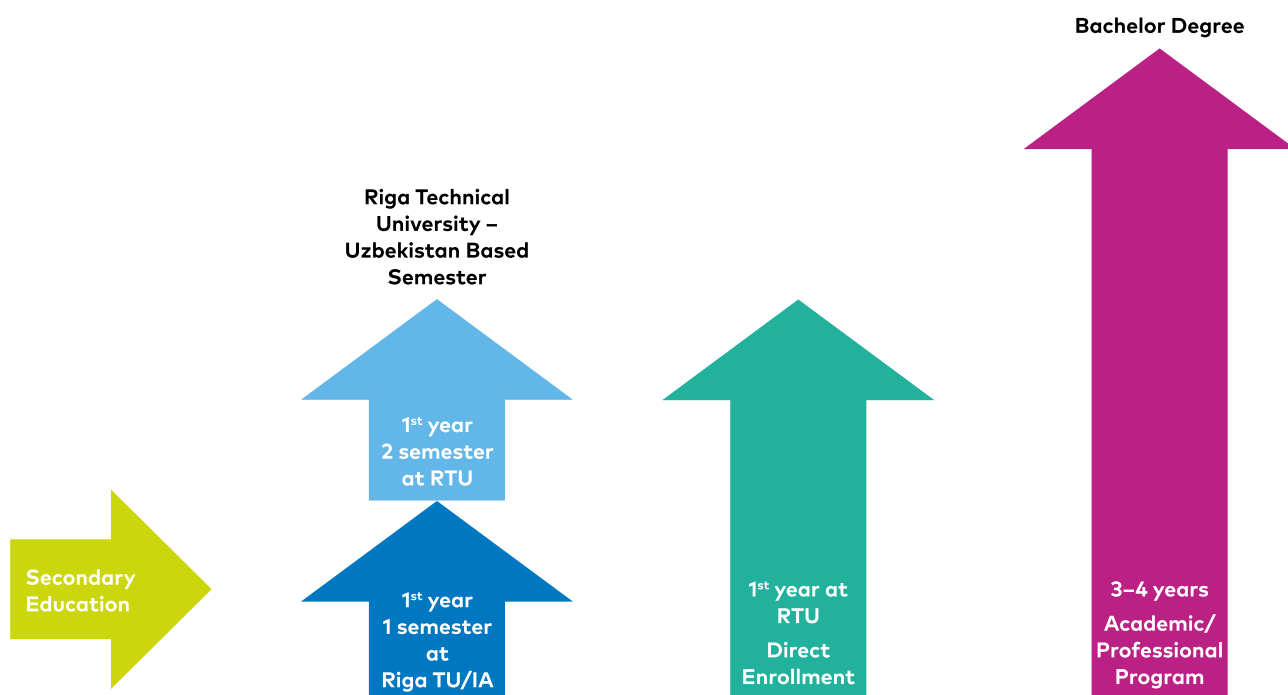

| |
|--|
| Telecommunications |
| Entrepreneurship and Management |
| Electronics and Mobile Communication |
| Engineering Technology, Mechanics and Mechanical Engineering |
| Economics |
| Aviation Transport |
| Electrical Engineering |
| Chemical Technology |
| Computer Systems |

- **Accessible** – offers interactive theoretical and practical classes in Tashkent in Riga TU Information and Study Centre (International Academy).
- **Excellent** – RTU professors in cooperation with local professors supervise, monitor and deliver the study programmes to the students fully in English. Students are passing mid-term and final exams with RTU professors, who are fully in charge of the assessment and final students' grades.
- **Relevant** – the 100% RTU syllabus, content of the Semester study programme corresponds to the first semester study programme in Riga Campus. Online lectures and exams are conducted by RTU academics and staff.
- **Flexible** – two intakes per year (for Autumn and Spring semesters).
- **Affordable** – affordable fees, scholarships and moderate living costs.

| | |
